

Disability Access Information

Accessible Parking

The school has accessible parking bays for Blue Badge holders. Two accessible parking bays are located in the main drive a few metres from the main school entrance. Another accessible bay is located nearer to the music suite. To access this Blue Badge parking bay, you enter the left hand gate when arriving at the school entrance from High Oaks. On entering the left hand gate, turn immediately left and pass over two speed limiting ramps. Turn right after the second speed limiting ramp and the Blue Badge parking bay is straight ahead of you.

If you require assistance after parking please contact the school reception during normal working hours by telephone (01727 853047) or by sending a messenger.

Accessing the main school buildings during normal working hours

Wherever you park, make your way to the main reception by following the school signage. The entrance to reception is via a security buzzer press system. When the receptionist replies, please pull on the right hand door to access the reception area. If you require assistance with the door please indicate this to the school receptionist.

Accessing the School Website

On the top bar of the school website in the purple bar towards the right hand side of the page, next to the search area, is a tool which allows you to choose the text size which you are most comfortable at reading.

Hearing Loop

The main School Hall is fitted with a Hearing Loop to support people with hearing impairment.

When attending a function in the main school hall that is using the system, switch the hearing aid to the appropriate setting to make use of this facility.

Visual Warnings

The school has many highlighted paint markings, to show changes in surface levels (e.g. pavement edges) and also has markings to highlight under stair areas. Some of the main road crossing points also have physical touch paving.
