

Disability Access Information

Parking

The school has a parking bay for blue badge holders. To access the Blue Badge parking bay, you enter the **left hand gate** when arriving at the school entrance off High Oaks.

On entering the left hand gate, turn immediately **left** and pass over two speed limiting ramps. Turn right after the second speed limiting ramp and the Blue Badge parking bay is straight ahead of you.

If the Blue Badge bay is already occupied, drive to reception, where you will be guided to an additional flat area to park.

Accessing the main school buildings

Wherever you park, make your way to the main reception by following the school signage. The entrance to reception is via a security bell press system. When the receptionist replies, please pull on the right hand door to access the reception area

Accessing the School Website

On the right hand side of the opening page in the purple bar, is a tool which allows you to choose the “text size” which you are most comfortable at reading.

Photographs on the website – as many as possible of the photos included on the school website have hover-over descriptions attached to them.

Hearing Loop

The main School Hall is fitted with a “Hearing Loop” to support people with hearing impairment.

When attending a function in the main school hall, switch the hearing aid to the appropriate setting to make use of this facility.

Visual Warnings

The school has many “highlighted” paint markings, to show changes in surface levels (e.g. pavement edges) and also has markings to highlight under stair areas.
