

British Science Week

OUR PAST YOUR FUTURE

British Science Week 2025 (7th–16th March) is a nationwide celebration of science, technology, engineering, and maths (STEM). This year's theme, "**Change and Adapt**," highlights how science helps us understand transformation—whether in nature, technology, or society—and how we can adapt to new challenges. Get involved with exciting competitions, engaging activities, and inspiring movies that showcase the power of change in shaping our world!

RAF Visit – Year 7 Activities

Date: Monday 17th March

You'll explore **either**:

1. **Sphero Coding** 🤖: Program robots to navigate an airport!
2. **Drone Mission** 🚁: Plan and test drone routes!

Fun, fast, and full of learning!

British Science Week 2025 – Year Group Activities

🌍 **Year 7 – "Your Planet Needs You"** – Exploring how we can adapt to protect the environment.

🦋 **Year 8 – "Adaptation"** – Investigating how living things evolve to survive.

💧 **Year 9 – "Droughts and Floods"** – Understanding how we adapt to extreme weather.

🔥 **Year 10 – "Climate Change: The Facts"** – Examining the causes, impacts, and solutions to climate change.

Science Competition 🏆

- Model making competition (Entries to SAR)
- Inter House Science competition (During form time)
- British Science week poster competition (Entries to OZA)

TUTOR Time

STEM Person of the Week 📄

What does a scientist look like? It's time to **smash those stereotypes!**

'Stem person of the week' looks at stories of diverse individuals in STEM, inspiring young people from all backgrounds to see themselves as scientists! ✨

The Martian 🚀

Stranded on Mars, Mark Watney uses science and wit to survive in this thrilling adventure! 🎬

Mon-Fri lunchtime in Sc6!
